PRELIMINARY AMENDMENT

RECEIVED

OCT 11 2002

Technology Center 2600

Dear Sir:

Applicants respectfully request the Examiner to enter the following amendment prior to
examination of this patent application:

IN THE SPECIFICATION

Please replace the paragraph [0001] beginning on page 2 with the following rewritten paragraph:

A1 [0001] This is a continuation of U.S. Provisional Patent Application Number 60/258,765,
entitled "Method and Apparatus for Variable Rate Pipes" filed on December 30, 2000. The
specification shares some text with patent application Serial No. 09/887,957, entitled "Method and
Apparatus for a Hybrid Variable Rate Pipe," filed June 22, 2001; application Serial No. 09/887,303,
entitled "Protection Mechanism for Optical Network," filed June 22, 2001; and application Serial
No. 09/887,302, entitled "Method and Apparatus for a Non-BLSR Protected Layer 2/3 Channel,"
filed June 22, 2001.
